About me:

A creative and detail-oriented full-stack developer specialising in Blazor and .NET. A strong focus on building fast, secure, and scalable systems that follow industry standards and best practices. Proven ability to collaborate effectively with clients and teams, with a keen eye for clean, modern UI design and a passion for staying on top of the latest front-end trends and technologies.

Key skills:

- Blazor
- C#
- Auth0
- Git
- .NET
- ASP.NET
- SQL/ Linq
- REST APIs
- Azure Devops
- Adobe Suite/ Figma
- UI/UX Principles
- Flutter

Experience:

Developer | Greenlord Studios | 2021 – Present

Key Projects:

Online eCommerce Rental Platform

- Led admin panel development using **Blazor** and **.NET**, implementing secure **Auth0-based** authentication and authorisation, contributing to **UI/UX decisions** to ensure interface was intuitive and aligned with business needs.

Digital Inspection System for Public Sector

- Translated complex regulatory requirements into user-friendly solutions by collaborating early in the design process and ensuring legal compliance throughout.
- Contributed to front-end development and improved backend efficiency by optimising and refactoring API endpoints significantly reducing response times.
- Played a key role in enhancing system security and data handling, contributing to a successful penetration test.
- Designed **Figma** prototypes from scratch, taking creative lead and making key decisions to improve usability, accessibility, and overall UX.

Cross-Platform Mobile App

- Started production for a University mobile app using **Flutter**. Initiated and led development from concept to early prototype, implementing **Firebase** backend with secure sign-in and user management features, database architecture and UI design documentation.

Education

Bachelor of Science in Computer Science with Web Development

Northumbria University | 2018 – 2021

2:1 (69%)
